

Practical skills in responding to people who experience domestic & family violence

Course Details

Workshop Number: DV601-82534

Applications Close: 02/03/2020

Date: 30/03/2020 - 02/04/2020

Location: Wollongong

Trainers: Kellie Young Erin Cahill

Target Group

Workers supporting people who have experienced or are experiencing domestic violence.

Course Description

The 4 day course provides underpinning frameworks and practical skills in the provision of services to people who experience domestic violence (primarily but not solely women and children). The nature extent and impact of the tactics of domestic violence are explored along with the ways in which these tactics are supported at historical political cultural social and personal levels. A framework for response is built which utilises the perspectives from women and children who have experienced domestic violence human rights conventions legislation strengths based philosophy and evidence based literature. This course is aligned to 2 units of competency in the CHC Community Services Training Package. Assessment is optional.

- CHCDFV001 Recognise and respond appropriately to domestic and family violence
- CHCDFV012 Make safety plans with people who have been subjected to domestic and family violence.

If you wish to undertake the competencies you will need to complete and submit assessments in order to gain a statement of attainment.

Learning Outcomes

Discuss definitions of domestic/family violence tactics used and prevalence and incidence amongst diverse populations. Identify the social cultural and historical contexts that support the tactics of domestic violence and shape community attitudes. Demonstrate an understanding of the impacts of domestic violence on children and child protection responsibilities which support mothers in safe parenting. Recognise the importance of cross-agency collaboration advocacy and case management when responding to victims of domestic violence. Demonstrate knowledge of the effects of vicarious trauma identifying possible indicators and implement strategies to manage the effects of vicarious trauma and respond to worker safety.
